

**CALIFORNIA HEALTH FACILITIES FINANCING AUTHORITY
TAX-EXEMPT EQUIPMENT FINANCING PROGRAM
G.E. CAPITAL EQUIPMENT PROGRAM
EXECUTIVE SUMMARY**

<p>Applicant: Emanuel Medical Center (EMC) 825 Delbon Avenue Turlock, CA 95382 Stanislaus County</p> <p>Project Site: Turlock, California</p> <p>Facility Type: Acute Care Hospital, Skilled Nursing & Assisted Living</p>	<p>Amount Requested: \$3,500,000</p> <p>Requested Loan Term: 5 years</p> <p>Date Requested: June 27, 2002</p> <p>Resolution Number: E-20</p>																
<p>Use of Loan Proceeds: Proceeds will be used to purchase a CT Scanner, MRI, various medical equipment and expand the outpatient center by approximately 2,000 square feet.</p>																	
<p>Type of Issue: Private Placement</p> <p>Security: First lien on equipment</p> <p>Expected Rating: Unrated</p> <p>Placement Agent/Lender: G.E. Capital Public Finance, Inc/G.E. Capital Corporation</p> <p>Bond Counsel: Orrick, Herrington & Sutcliffe LLP</p>																	
<p>Financial Overview: Over staff's review period, EMC has experienced operating losses in each of the last three fiscal years. In addition, losses on its investment portfolio have resulted in a declining net asset balance. However, EMC is taking steps to increase revenues and expand services over the next two years. EMC has significant financial resources, with over \$63 million in total net assets.</p>

**STAFF SUMMARY AND RECOMMENDATION
TAX-EXEMPT EQUIPMENT FINANCING PROGRAM
G.E. CAPITAL EQUIPMENT PROGRAM
Emanuel Medical Center, Inc. (EMC)**

June 27, 2002
Resolution Number: E-20

I. PURPOSE OF FINANCING: Emanuel Medical Center intends to purchase equipment to improve operational efficiencies through better information systems and more cost-effective diagnostic and treatment technologies.

The details of the project are shown below:

Equipment\$2,867,750

Hitachi Altaire .7T Open Magnet MRI\$1,726,525

The MRI will be replacing the current MRI that is old and inefficient. The replacement of the MRI will help increase efficiency and patient visits.

GE Helical CT Scanner\$724,100

The CT Scanner will replace the current scanner that is outdated and inefficient. This will help meet future demands and will allow better service to EMC current patients.

Misc. Equipment\$417,125

EMC will purchase computer software and hardware, a Mammography Unit, and upgrade the Angiography. These additions will help further the efficiency of the hospital and better serve patients.

Site Improvements and Expansion.....590,000

The outpatient center will be expanded by approximately 2,000 square feet in order to provide additional space for the new MRI and future space for a CT scanner dedicated to outpatient services.

Costs of Issuance 42,250

Bond Counsel.....\$20,000

Hospital Counsel.....\$20,000

Issuer Fee.....1,750

Escrow Fees.....500

Total Uses of Funds\$3,500,000

Structure of Financing:

- Tax-exempt revenue note.
- Privately placed with GE. Capital Public Finance, Inc. (GECPF)/G.E. Capital Corporation (GECC).
- Five-year loan fully amortized.
- Fixed interest rate estimated range to be 5.10% - 5.45%.
- Estimated monthly payment is \$67,000 (approximately \$804,000 first year payment).
- GECPF/GECC will be granted a first priority security interest in the equipment.

(a) Recalculates 2001 audited results to include the impact of this proposed financing.

Financial Discussion:

Over staff's review period, EMC has experienced operating losses in each of the last three fiscal years. In addition, losses on its investment portfolio have resulted in a declining net asset balance. However, EMC has taken steps to increase revenues that are resulting in positive financial results.

Over our three year review period, EMC has shown operating losses, largely due to inadequate capitation contracts, and fluctuating investment income. While two years have shown relatively modest losses, in fiscal year 2001, EMC had a loss of over \$4 million. This loss was due to increased salaries and wages, purchased services-capitation and bad debt. EMC increased salaries and wages to attract and retain quality staff, due to the significant competition for hospital staff from other area hospitals. In addition, the purchased services under their capitation contracts spiked to nearly \$9 million in 2001. As a result, in fiscal 2001, EMC discontinued its capitation contracts and returned to a fee-for-service system.

Bad debt has more than doubled over our review period, from \$2.9 million in 2000 to \$6.2 million in 2002. EMC does not anticipate a significant decline in the number of uninsured and low-income patients as the area's small businesses continue to drop health insurance coverage in the current uncertain economy.

In addition, EMC has experienced significant fluctuations in its investment returns (realized and unrealized) over our review period with large gains observed during fiscal year 2000, basically break-even in fiscal 2001, and sizeable losses in fiscal 2002. These fluctuations are consistent with other investment returns observed amongst other health facilities in the industry, due to the volatile stock and bond markets. Fortunately, EMC has sizeable financial resources to handle the wide swings that have occurred in the financial markets.

EMC has taken several steps to stem its operating losses and return to positive financial operations. After discontinuing its capitation contracts in 2001, revenues outpaced expenses, increasing from \$65 million in 2001 to \$70.5 million in 2002. As a result, EMC's operating loss fell from \$4.1 million in 2001 to \$132,000 in 2002, a \$4 million turnaround. EMC is also recruiting 25 physicians over the next two years, which it projects will increase revenues by approximately \$18 million by 2004. In addition, EMC is in the process of replacing its birthing center at a cost of \$4 million. EMC has raised \$1.5 million through donations, as well as a \$2 million matching grant from the Mary Stewart Rogers Foundation. EMC anticipates the birthing center to be complete and operational by January 2004. The new birthing center is projected to increase deliveries by approximately 300 per year, which will increase revenues by approximately \$600,000 annually. EMC has retained more than 60% of its market share for the last five years and with the anticipated growth in physicians and new birthing center, projects strong future demand for its services.

EMC has significant financial resources, with over \$63 million in total net assets.

EMC's investment portfolio consists of over \$50 million in fixed income and equity securities. EMC has relatively low level of long-term debt at \$23 million when compared to equity of over \$63 million, leading to a debt to unrestricted net assets ratio of 0.36x. The proposed financing will increase this ratio to 0.46x. Debt service coverage is currently 2.24x and will decrease to 1.65x with the proposed financing, indicating that EMC should be able to manage the proposed loan payments comfortably.

IV. BACKGROUND:

EMC opened in 1917 and is currently licensed for 150 acute care beds, 145 skilled nursing beds, a 49 bed assisted living facility, emergency services, ambulatory surgery, outpatient diagnostic facility, home health care, a hospice, and an occupational medicine clinic.

Services: EMC provides the following services: 24-hour emergency care, Cancer treatment and services, Family Birth Center, NICU, Medical and surgical services, Outpatient Surgery Center, Inpatient and outpatient rehabilitation services, Intensive Care Unit, Skilled nursing facility, Home Care services, Hospice services, Diabetes care, Inpatient and outpatient diagnostic imaging, Wellness programs and classes, Physical Therapy, Cardiac rehabilitation.

Service Area: EMC service area covers a portion of both Stanislaus and Merced Counties.

Competition: EMC faces competition from hospitals in the area. EMC has had greater than 60% market share for the last five years. EMC is the only independent hospital remaining in the Turlock area.

Licenses: EMC is licensed by the State Department of Health Services to operate as a General Acute Care Hospital with approved outpatient services. EMC participates in Medicare, Medi-Cal and managed care programs as discussed below:

Medicare: EMC is accredited by the Joint Commission on Accreditation of Healthcare Organizations which provides deemed status for Medicare. Medicare contracts run concurrent with accreditation next scheduled in 2004. Medicare revenues provide approximately 43% of total support and revenue.

Medi-Cal: EMC has a Medi-Cal contract with a renewal date of August 1, 2002. Medi-Cal revenues provide approximately 21% of total support and revenue.

Managed Care: EMC contracts with over thirty (30) managed care organizations that include: Blue Cross, Blue Shield, Aetna, PacifiCare, and many other large networks with varying expiration dates. Managed care revenues provide approximately 29% of total support and revenue.

V. OUTSTANDING DEBT

Date Issued	Original Amount	Amount Outstanding as of 1/31/02	Estimated Amount Outstanding after Proposed Financing
Existing Debt:			
Certificates of Participation, Series 1993	\$28,790,000	\$24,199,000	\$24,199,000
Notes:			
Covenant Trust Company	362,400	281,000	281,000
Proposed:			
CHFFA Equipment Financing 2002			<u>3,500,000</u>
Total Debt		<u>\$24,480,000</u>	<u>\$27,980,000</u>

VI. SECTION 15438.5 OF THE ACT (Savings Pass Through)

EMC will pass on the savings of tax exempt debt by continuing to provide quality, comprehensive patient care to the community. This financing will enable EMC to bring state of the art technology to the community. EMC routinely charge less than half of its competitors for the same services. By obtaining tax exempt debt, EMC will be able to continue this practice.

VII. SECTION 15459.1 (b) OF THE ACT (Community Service Requirement)

EMC has submitted its physicians' list dated May 30, 2002 as required by Section 15459.1 (b) of the Act.

VIII. COMPLIANCE WITH SEISMIC REGULATIONS

SB 1953 (Chapter 740, 1994) requires that all acute care hospitals in California meet specific seismic safety standards by 2008 and 2030. All general acute care hospital owners must have performed seismic evaluations on each hospital building by January 1, 2001, and submit a plan for achieving compliance if the buildings do not meet SB 1953 seismic standards to the Office of Statewide Health Planning and Development (OSHPD) for review by January 1, 2002.

EMC has completed the required evaluation. It is expected that the remaining required improvements for 2008 will be handled through the routine capital budget and financed by operating funds. The remaining budget for seismic compliance is anticipated to be less than \$1,000,000 for the 2008 requirements. The 2030 requirements will be much more extensive and will require bond financing at that time.

IX. STAFF RECOMMENDATION: Staff recommends the Authority approve an equipment financing resolution for Emanuel Medical Center, Inc. in an amount not to exceed \$3,500,000 with a term of five years.
